

IPVideoTalk Conferencing Service

The business world requires more mobility than ever before. Employees are always out of the office, businesses with multiple office locations have increased, and home/remote workers are more prominent than ever before. In order to succeed, businesses need a tool that allows them to keep their workforce connected, efficient and productive - no matter where they are. Enter Grandstream's IPVideoTalk service, a paid video, audio and web conferencing service that allows you to turn a video conference hosted on Grandstream's GVC3200 or GVC3202 into a comprehensive, online video meeting that can be joined from any other GVC3200/3202 and any Web-RTC capable browser. With IPVideoTalk, you can now hold meetings, video conferences or audio conferences that your team can join from wherever they are.

Full HD Video

Industry-leading 1080p Full HD to maximum quality and clarity

Conference Room Integration

Hold conferences on your GVC that can be joined by other GVCs and web users

Share a Screen
